PROFILE

I am a Front-end, Mobile developer with 2 years of commercial experience. I was working with such tools as React.js, React Native, TypeScript, Redux, etc. Frankly speaking, I am always open to new features and challenges. As for me, I prefer a remote or a hybrid of remote and office work.

COMMERCIAL PROJECTS

I had been developing a huge website for the USA Trucks logistics business for almost 1 year.

Duration: 10 months

Technologies: React.js, TypeScript, Redux(saga, hooks), Scss

I developed a website for managing the Hotel business.

Duration: 3 months

Technologies: React Native, Redux(thunk, hooks), material ui.

I created a website for buying cryptocurrencies.

Duration: 2 months

Technologies: HTML, Scss, Bootstrap.
