PROFILE

I am a person who studies and researches the front-end sphere for 4 years. Nowadays I am a student of Lviv Polytechnic, and study computer engineering. Be sure I will be helpful for you if you are looking for employee who always perform tasks, qualitatively and to the deadline, can find a common ground with the team, and likes to discover new knowledge . I'd like to work in company that obliges to write a clean, structured code and creates an atmosphere of mutual respect.
